Apocalypto film history? Apocalypto the Mel Gibson film of 2006 my first memory of this film, when it came out I was working in the cinema like in Warrington when I was living in Arrest Warrant at the time and I remember that our box office we usually served, like ours, who watched the tickets, but I spoke to a friend who served there and literally these 14 are teenagers all came in real rabies rousers and ordered tickets they are all the ticket for Apocalypto I heard clearly that it was like it was violentextreme film it was. rated an 18 so they all come in and then I get tickets and then literally as the last guy bought his tickets someone mentioned that it had subtitles and all these idiots got their money back literally 4 to 14 and so kids just kind of trying to get them about teen late teens, but yes for some reason When I think of this movie, I think that story stop the need to share it, but it you go anyway Apocalypto follows this guy called Jaguar Paw, which is part of it. apocalypto tamil synchronized movie download trunk in a rainforest somewhere we see life with them for a bit we see his family the people he lives with in the village and they are suddenly kidnapped they are basically villages in vain by the Mayans kind of taking them to their city, which is filled with a kind of debauchery and just decadence and really great architecture and amazing costumes it is divided color , but yes, this is how really the kind of coat of arms of culture in this region the Mayans obvious and basically Jaguar paw will be sacrificed as part of their worship to the gods. he escapes and the last third of the film becomes a chase movie kind of the mix of predator and yes some of the action type of movie, but uhs an incredible piece of work it really is it is very visceral filmmaking is very visual Mel Gibson makes the choice as he did with Passion of the Christ to try and use the language which I mean, I don't know how close they can be to actual Mayan language or evert I know it's a dead culture I don't think world history or good, but knows that yes, this is a movie essentially about the destruction of the Maya and what Mel Gibson does typical Mel Gibson here is he throws certain things during the movie that I think out of his head when you try to look at this movie from okay that's what happens in the movie, but why is that there and . Hangover 2 tamil synchronized movie Download Read more Latest Hindi news more important who put that there and he in what case, what does it mean to keep an eye on it, it's Mel Gibson who put everything here I think this is really a movie about how God the Christian god Mel Gibson Sgott said Mayas your time is up and my time is coming you know So we see scenes throughout the movie where essentially prophets come up with a sequence with this child's jaguar paw has some dreams as well as show the future and he also comes face to face with this child who gives a very kind of yes dark prophecy about essentially. the end times for the Maya around them they basically predict that again this is their time it is over, but you get the feeling that this is a kind of God speaking through this child like a prophet like the prophets of the Old Testament that you know before Christ before John the Baptist before them, not because prophets in the Old Testament Who have talked about God and what he would do, and I feel like that's that this in this movie is essentially Mel getting what Mel Gibson is doing. because again I'm not a history fanatic, I don't know much about the Maya, but I'm under the illusion that most people don't, that it's actually a dead culture, that yes, we don't quite know what happened to them so much of it speculation a lot of it is fantasy on Gibson's side, but I think that's where he comes from That's the way I read it that what I see from it, you know and we finish the movie basically about Christian invaders Christian missionaries kind of you know, jag your par and these two. People are chasing him somehow to the beach I come in a boat it's a bunch of men in robes carrying a cross and we know that oh ok okay, that's the missionaries they're coming, this is essentially you know, we see the Mayan culture die at this point and the birth of the yes Christian way of life come into the country so that's essentially What the film is about in its widest scope, but in its most immediate scope it is really just a movie about a man who is trying to save his wife and his child and away from the enemy you know that you are in the fiercest spectacular way that. Mel Gibson is not pretending fine you think Braveheart think these combat sequences very bloody very violent , but passion passion of the Christian' it is something that kind of runs through Mel Gibson's body of war this idea that in order to get to redemption you know to get into the heavenly kingdom or whatever you want, as you want to say it, you have to go through this trial through the valley of the shadow of death so to speak Violence is the violence that shapes you and ultimately makes you the man who will be a man of redemption and redemption, and it is that it is a common theme in Gibsons. Work Work something he obviously likes to put into his movies and yes, I could say that's no different if they don't like what Gibson has done with Braveheart or passion of The Christian movies like that, then this won't be for you and Saint who will win you over as I say it's incredibly violent there are some moments here That I had completely forgotten to be honest, uh and I'm looking at it again this time around Oh flat, you know that arrows go straight through the faces of the people you know. Traps that jaguar is laid that is just spikes by people it's just it's giving us another hole back, but there you go that Gibson tires are full on and from view it's very nice to also watch certain scenes when Jaguar runs through the rainforest a scene especially where he is chased by a jaguar that he then leads to his enemy very creatively attacking the whole thing actually, where Jaguar takes out its enemies, he is really creative as the use of the toad the poison for the toad it is. just yes, it shows the resilience of this guy and the fact that he knows his own environment and he can use it against his enemy, but all that stuff is just it's beautifully turned it looks great and he, although it's kind of overly violent sometimes it's never less than nice to look at in a twisted way movies got a pretty nice score to him as well as it kind reminded me of the music in the new world as the movie in fact in many ways in many sections somehow reminded me of Terrence Malick's the new world just turned things like this and yes the scores of James Horner I checked that afterwards you know so that his name in the credits and realize, oh okay James Anna he has score for the new world, so there you go the movie has a very nice three act structure That we like the opening 25 minutes half an hour that is really about this village about Jaguar and his friends and relationships and I think it's good that Gibson spends time doing that you know he's spending time showing us these people and really showing us that they have very similar problems or despite the fact that. You know that they don't live in big cities with electricity and all that they have very similar problems family dynamics to contend with, with that everyone somewhere somewhere at any time knows that you see this one guy who is somehow a bit of a problem with his enlarged mother-in-law, oh she's after a son or her daughters you want kids and kind of bullying him a bit a bit To be honest, you know that it makes him feel useless and something like that is partly amusing how his friends treat him and go to him. a point eating the testicles of a pig I think it is, but it is disgusting, but it is and it's just like saying it's not something I would struggle with, but the emotional stuff the family dynamic it's still very present very today, so it just makes it just makes these people really relatable, so I'm glad I'm, Gibson does that spend the time that and it makes you somehow feel for certain characters as well as much more. that guy you know who is always bullied he will know spoiler alarm he survives this movie he doesn't survive he goes pretty heroic, but it's only when he goes you somehow feel bad for the guy cuz he yes, you never particularly well treated he was not particularly well respected, but he has respected himself as someone you know as a defender of his tribe That's looking for his friends and stuff so I took care of the guy, so all I say is yes Gibson does a good job that I take care of these guys, so if we're in the second act that thrown the Mayan fabric, which is essentially a prisoner of war movie with additional sacrifices for a good measure you know that you want these guys out and then obviously when they get out it's just going to be an all-out action festival it's a chase movie in which yes is like a bit. Kind of predator esque in which this guy is pursued, but he then turns the skewer on his enemy in the jungle so very clearly three act structure, which only does a very good job to tell the story that it wants to tell very well, since there is a touching moment as well as with the one with the said mother-in-law where she so If it's artanur they are taken there then put on the market as slaves to solve and no one wants to solve them because she is old, she is over and she is essentially just letting go and it is this. Moment of realization where she looks at the son-in-law who is somehow being taken away with the rest of the guys, where she realizes that she is after all the ribs that she had given him and said that you know that he is useless all the time and that and that and that and the other that she suddenly realizes that in the eyes of society around her she is useless, is certainly the one that has been taken out of a society in which she was big and powerful and was seen as something like a head of the family and put into these others. Culture where she can't actually be bought as a slave and it's a pretty touching moment and it's all told in this look between her and the son-in-law and yes, you realize how that's it, so it's a good movie I like halogen sections in it legend that the family building that POW stuff and then they're action fest at the end That my favorite part is it just of the sheer kind of brutality and body count and inventive ways to kill people, it's a great movie. it's entertainingly very entertaining and if you want to dig deeper, there are things you know when he's someone who films you to mean something, and I think the movie is trying to say something like I said from Mel Gibson's perspective, whether you're in Perspective buys or not, but I think that's there, so yes, I like the movie that I give him a four out of five I think it's great yes Mike thank you for recommending this really great.
